This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 60730 is issued subject to the terms and conditions imposed in said Permit 60730 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit totally abrogates Permit 60730.

The issuance of Permit 62423 expires Permit 62424-T.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.3375 cubic feet per second, but not to exceed 74.73 acre-feet annually.
